 EAST RIDING OF YORKSHIRE COUNCIL  Supported using public funding by ARTS COUNCIL ENGLAND  HUMBER MUSEUMS PARTNERSHIP www.humbermuseums.com

From Street to Stadium is an exhibition about nine men from Goole who played professional football in the 1960s.

On **Saturday 7th September at Goole Museum** there is an event from **12-3pm** when visitors will get the opportunity to meet some of these players, including John Kaye (West Bromwich Albion), John Woodall (Rotherham United), Ian Davidson (Stockport County), Stan Marshall (Notts County) and Steve Drake (Scunthorpe United).

This is a great opportunity to meet with these players from the past. Stan Marshall lives in Airmyn and he is one of the footballers featured in the exhibition.

The event is free and open to all. There is a lift available and once upstairs it is fully accessible.

The exhibition will run until 2 November, so even if you can't make it to the event, there is plenty of time to go along and see it.

Airmyn Emergency Team.

All Town and Parish Councils are encouraged by ERYC to have an Emergency Plan, which, where possible, should be supported by an Emergency Team. Airmyn Emergency Team are there to respond to any significant emergency within the Parish, liaising with ERYC and the emergency services to help minimise the impact of the emergency. All members are volunteers from the parish. Recent emergency events in other areas of Yorkshire show how these events can affect communities and the important part that volunteers play in helping the community get through them.

Our Emergency Team met in July and reviewed the current set up of the group, made some modifications and improvements to ensure we are ready to respond. We've had a few members, for various reasons, withdraw from the group – thanks are expressed for their time as members. We are now a team of 15 and any new members are welcome, please contact Rob via the Parish Council contact details for more information

Work in the churchyard

We are anticipating that one of the Scots pine trees in the churchyard will be felled in the fairly near future and the other one 'crown-lifted' to a height of four metres. The roots of these trees have already damaged the churchyard path, which is to be repaired at the same time, and they also pose a clear threat to the foundations of adjacent buildings. They have simply grown too big for their situation and are to be replaced with smaller native species such as crab apple, rowan and hawthorn. All the appropriate authorisations have been obtained to have this work carried out. If anyone would like some of the logs from these trees, they would be welcome to collect them immediately after the work has been completed.
